

## **BUILDING 1**

Building 1 (formerly 53) was completed in 1934 for Field Officer Quarters. It now serves as the general's quarters and is the largest 1-family residence on base. It is a two-story brick structure with a gable shingle tile roof. Foundation and first floor are reinforced concrete.

The building stands largely unaltered except for the front enclosed porch. The infill sections between columns have been changed with new window assemblies at both the first and second floor levels, the roof balustrade has been removed, and the entry steps have been extended also adding a columned flat canopy above.

### **BUILDING 1**

#### **CONDITION SURVEY**

#### GENERAL'S QUARTERS

- 1. Lower 3 feet of walls are heavily soiled and support moss growth.
- 2. Minor repointing is needed on the west (rear) wall.
- 3. Windows: Some missing putty. Peeling/chipped paint and heavily weathered (particularly at sills). Rusting nails in casings.
- 4. Rear entry roof balustrade: Severe peeling paint. Heavy paint build-up.
- 5. Dormers: deterioration and possible rot of siding and trim.
- 6. Check suitability of flashing at dormer side walls.
- 7. Soil piled up against wood at garage extension.
- 8. Enclosed front porch: Peeling paint on flashings, panels, trim. Moss growth on stone sill.
- 9. Columns: Water damage at base and cap. Moisture is getting into shaft.

#### MAINTENANCE AND REPAIR NOTES

#### 1. MASONRY CLEANING

a. Remove moss and clean walls according to recommended procedures in article on "Brick Masonry Walls".

#### 2. REPOINTING

- a. Refer to article on "Brick Masonry Walls" and repoint accordingly.
- b. New mortar should be tinted to match existing mortar.
- c. Tool joints to match existing.

#### 3. WINDOWS

- Recondition windows according to articles on "Wood Windows" and "Paint" and related illustrations.
- b. Remove rusting nails in casings. Fill holes.

#### 4. ROOF BALUSTRADE

- a. Refer to articles on "Wood" and "Paint".
- b. Strip balustrade and associated trim of all paint layers.
- c. Resecure any loose or open joints.
- d. Repaint with one prime and two finish coats.
- e. Reconstruct balustrade on front porch roof using historic photos as guide.

#### 5. DORMERS

- a. Refer to article on "Wood" and Siding illustrations for repair.
- b. Replace rotted siding boards.
- c. Scrape and sand remaining siding and trim.
- d. Repaint with one prime and two finish coats.

#### 6. DORMER FLASHING

- a. Check integrity of flashing.
- b. Replace or repair as needed.

#### 7. REGRADE

a. Regrade to lower top of soil to 6" below wood.

#### 8. FRONT PORCH

- a. Refer to articles on "Wood", "Paint", and "Masonry"
- Remove moss from stone sill and clean sill.
- c. Scrape and sand all wood panels and trim.
- d. Wire brush flashings.
- e. Repaint with one prime and two finish coats.

#### 9. COLUMNS

- a. Refer to article on "Wood Columns".
- b. Flash top of column with lead sheet.
